Professional Summary

Final-year Electronics and Communication Engineering student with hands-on experience in Embedded Systems, TinyML, IoT, and Artificial Intelligence. Developed a TinyML-based Smart Irrigation Decision System using ESP32 and multiple AI-based applications. Passionate about Embedded Systems, ARM architecture, Edge AI, firmware development, and IoT solutions. Seeking Embedded Systems and Firmware internship opportunities.

Technical Skills

- Artificial Intelligence, Machine Learning, C, Embedded C, Python, C++ (Basic)
- ESP32, Arduino, TinyML, IoT, Sensor Interfacing, Edge AI
- Arduino IDE, MATLAB, Jupyter Notebook, Git, GitHub, VS Code
- Embedded Systems, Digital Electronics, Communication Systems, IoT, ML Fundamentals

Projects

TinyML-Based Smart Irrigation Decision System Using ESP32

Developed an intelligent irrigation system using TinyML and ESP32 with real-time soil monitoring and edge AI decision making.

<https://github.com/Tharuni16012005/TinyML-Smart-Irrigation-System-ESP32>

AI Virtual Mouse

Developed a gesture-controlled virtual mouse using Python, OpenCV, and MediaPipe.

<https://github.com/Tharuni16012005/AI-Virtual-Mouse>

AI Sentiment Analyzer

Developed a sentiment classification application using machine learning.

<https://github.com/Tharuni16012005/AI-Sentiment-Analyzer>

AI Resume Parser

Developed an AI-powered resume parsing system using Python and NLP.

<https://github.com/Tharuni16012005/Automated-Resume-Parser>

Education

B.Tech – Electronics and Communication Engineering

Megha Institute of Engineering and Technology for Women, Hyderabad

CGPA: 8.9/10 | 2023–2027

Certifications

- Qualcomm AI Upskilling: Technical Foundations (2026)
- IBM SkillsBuild – AI Fundamentals (2026)
- NIELIT – Embedded for Beginners (2026)
- IIRS – Geodata Processing using Python and Machine Learning (2026)
- Forage – Tata Cybersecurity Analyst Job Simulation (2025)
- Infosys Springboard – Internet of Things 101 (2026)
- TCS iON – Career Edge-Young Professional (2026)
- Women Who Master - Participation of Certificate in MCQ (2026)
- Infosys Springboard – Internet of Things 101(2026)

Internships

- **Codec Technologies**
Completed a 1-month Python Developer Internship focused on Python fundamentals and practical programming.
- **TechnoHacks**
Completed a 1-month Cybersecurity & Digital Forensics Internship covering cybersecurity fundamentals and digital forensic concepts.

Achievements

- Developed and published multiple AI projects on GitHub.
- Successfully designed a TinyML-based Smart Irrigation System using ESP32.
- Earned achievement badges on Kaggle and Creadly.
- Published Paper on ICIKS.

Interests

- Embedded Systems, IoT, RTOS
- ARM Architecture
- Firmware Development, TinyML
